SEASONS GREETINGS

Looking back over this year, I would like to thank each and every one of you for the support and encouragement you have given me during my first term as President of this fine organization. Because of your efforts, we have accomplished so much this year.

This past spring, our annual genealogical seminar and book fair was a tremendous success. James Douthat, of Mountain Press, provided us with timely research information and through the generosity of authors and publishers all over the country, we were able to place over 100 books (with a total value of over \$2,500) in the Genealogy Collection of Shreve Memorial Library in Shreveport, Louisiana. Thanks to all of you for your hard work!

Our microfilm projects have kept us quite busy this year. This summer, we filmed the early baptism and marriage records of St. Mark's Episcopal Cathedral in Shreveport, Louisiana, and this fall we are completing the filming of DeSoto Parish Courthouse Records (1843-1910), consisting of day books, successions, tutorships, and miscellaneous other records. Special thanks go to all of you who have spent the many hours needed to film these records so that they will now be available to researchers.

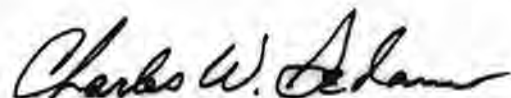

We have had many very good programs at our monthly meetings this past year and want to continue to provide the information you need to be a better genealogist. Volunteers to give programs and suggestions for programs are always needed; contact Laura Duffy, our program chairman, with your ideas.

We are in the process of updating our mailing list. As most of you know, the postal service will soon require the use of the nine-digit ZIP code. Please check your mailing label; if we don't have your correct address (including the nine-digit code), be sure to put it on your renewal form. Also, if you have missed any issues of THE JOURNAL, please drop us a card - we'll get them out to you.

With the approaching year end, I would like to remind you that it's RENEWAL TIME! We are including in this issue a green renewal form. Please take the time to complete the member information; we would like to include a member list with surnames being researched in an upcoming issue of THE JOURNAL. Also, we would very much like to include your queries, family histories, lineage charts, family group sheets, articles, and other information you can provide. If you would like to extract information from old newspapers, courthouse records, etc., we welcome your help in that area, too.

See you at our annual Christmas Luncheon at 1:00 p.m. on December 2, 1995, in the Eaves Room at Shreve Memorial Library. Bring a covered dish and enjoy!

HAVE A SAFE AND HAPPY HOLIDAY!

PROTECT YOUR VALUABLE RECORDS

COMPUTER RECORDS - - - Over the past 30 years, many records have been collected and stored on computer tape. In the mad dash to produce even faster machines with fantastically expanded storage, one factor seems to have been forgotten: Many tapes made years ago cannot be run on present computers!

Census data from the 1960 census is stored on thousands of reels of old tape. The old film would probably disintegrate if run on the old machines on which it was created. The Census Bureau has changed computers and tape drives five times since taking that 1960 census.. Parts of the 1970 and 1980 census face the same problems.

Lesson: Be sure to transfer your records to newer software programs when you upgrade programs, system, or computer.

GLAD BAGS - - - We have noticed that several genealogical publications have suggested using Glad Bags to store genealogical documents, pictures, etc. Glad Bags are NOT mylar and therefore are not archival; if that's your goal, then Glad Bags are not for you.

DENSON SPRINGS CEMETERY
Anderson County, Texas

Located south of Palestine, a Texas Historical Marker has been placed in the cemetery & provides the following information:

Early settlers in the area, known as Ioni after a nearby Indian village, began arriving in the early 1830's. The land on which this cemetery is located was granted to James BRADSHAW in 1835. When he died in 1844, the property was inherited by his brother William, who moved to the area with his family from Nacogdoches in 1849. One of William BRADSHAW's daughters, Diana, married Kindred WATKINS in 1850. When their first child was born & died on 15 Aug 1851, he was buried near their home. The child's burial was the first in what would become the Denson Springs Cemetery.

Over the years, this one-acre plot became a family burial ground. Later, other settlers of the area were also buried here. In 1878, the community became known as Denson Springs, and the cemetery as the Denson Springs Cemetery. During the 1870's, many of the settlers were from Alabama & Mississippi. FOR ALL THOSE BORN BEFORE 1945: WE ARE SURVIVORS!!!!

Some thoughts, by Joyce Shannon Bridges, considering changes.....

We were born before television, penicillin, polio shots, frozen foods, Xerox, plastic, contact lenses, frisbees, and the Pill. We were born before radar, credit cards, split atoms, laser beams, ball-point pens, and pantyhose. Also before dishwashers, clothes dryers, electric blankets, air conditioners, permanent pressed clothes, and before man walked on the moon.

We got married first, and then lived together. How quaint can you be? In our time, closets were for clothes, not for "coming out of". Bunnies were small rabbits, and rabbits were not Volkswagens. Designer jeans were scheming girls named Jean, and having a meaningful relationship meant getting along well with our cousins at family reunions.

We thought fast food was what you ate during Lent, and outer space was the the back of the Strand Theatre. We were born before house-husbands, gay rights, computer dating/marriages, dual careers, and "surfing the net". We were born before day care centers, group therapy, and nursing homes. We never heard of FM radio, tape decks, electric typewriters, artificial hearts, word processors, yogurt, and guys wearing earrings. For us, time-sharing meant togetherness; not computers or condominiums. A chip meant a piece of wood. Hardware meant hardware, and software wasn't even a word!

In 1940, "made in Japan" meant junk, and the term "making out" referred as to how you did on your exam. Pizzas, McDonald's, and instant coffee were unheard of. We hit the scene when there were five and dime stores, where you bought things for five and ten cents. The corner drug store had a soda fountain to buy ice cream cones for a nickel (or dime for a double scoop). For a nickel you could ride the trolley all the way downtown to Texas Avenue, or make a phone call, or buy a root beer, or enough stamps to mail one letter and two postcards. You could buy a new Chevy coupe for \$600, but who could afford one - a pity too, because when I got my drivers license, I could buy three gallons of gas for a dollar and ride around for hours.

In our day, cigarette smoking was fashionable, grass was what you mowed, coke was a popular soft drink, and pot was what you cooked the Sunday roast in. Rock music was Grandma's lullaby to the newest grandbaby, and aid's were helpers in the school office.

We were certainly not before the difference between the sexes was discovered, but we were surely born before the sex change (we made do with what we were born with); and we were the last generation that was so dumb as to think that you needed a husband to have a baby. It's no wonder that we folks over the age of 55 are confused and there is such a generation gap today.

BUT WE SURVIVED - WHAT BETTER REASON TO CELEBRATE THIS CHRISTMAS?
