PRESIDENT'S PAGE

The new year slipped in so quickly I hardly realized it was here until my calendar ran out of pages.

This will be my last year as president, as I would accept the office for only one term, and my great desire is to relinquish this WONDERFUL position to your next president with a well-organized, well-trained and enthusiastic group of supporters. My great desire is that the wheels are well oiled and run smoothly with no snags. This means a knowledgeable, well-informed and dedicated Board of Directors, and this I will strive for this year.

As I review the past and ponder the prospect for 1982, I cannot help but wonder what the future holds for this group of dedicated genealogists. With this concern uppermost in our thoughts, we need to set high goals and keep our hopes forever positive.

As an organization much emphasis is usually given to those who shun responsibilities and opportunities, but I recognize and support those who achieve; the one who sets out to do something and does it; the one who recognizes the opportunities with which he is surrounded and takes every advantage offered; the one who serves others and those who carry his own load and allows others to carry theirs.

This spring I plan to visit other genealogical organizations in this area to learn from them and to share with them any experience which might prove helpful. By this media I hope to promote understanding and cooperation among our neighboring societies.

Our project, to obtain printed material relative to genealogy for the genealogy section of the Shreve Memorial Library by reviewing those publications in The Genie, is one of great importance to this area, and we have had good response.

Our Exchange Program, whereby we exchange our publication for other societies' has enlarged the Periodical section of the Genealogy Department at Shreve Memorial. Our last count of exchanges is around the 100 mark and still climbing.

Our plans to reprint the back issues of The Genie, beginning early this year, has long been neglected. It is a large project, demanding time and expense and as everything is done by people donating those two UNimportant items, we feel it is a very outstanding accomplishment. We have many requests for complete sets of our quarterly, and by mid-year we hope to have copies of all issues ready for mailing.

In January 1981 upon taking office, I asked for your suggestions, your criticisms and your assistance; again, this year I ask for input and feedback from you. We need your ideas for lecturers, subjects, special classes, etc. Please send them to Mrs. CARLEEN CARNIVALE, Program Chairman, ARK-LA-TEX GENEALOGICAL ASSN., P. O. BOX 4462, SHREVEPORT, LA 71104.

I hope each and every one of you had a happy HOLY DAY Season and I hope for all a prosperous, fulfilling and rewarding New Year.

FERN AINSWORTH

EDITOR'S PAGE

With the holidays over, it is back to work again (as if we ever stop). I did find an ancestor in my stocking - a "JONES" - no less.

Our organization had worked hard to buy the 1880 and 1900 Soundex of Louisiana and Mississippi. Being the Editor has limited my visits to the library; however, before Christmas I just "chucked" everything and went right in the middle of Christmas shopping. I had no idea when or where my grandmother, Mary Elizabeth Jones, married my grandfather, William Pleasant Channell - but low and behold - I looked at the 1880 marriage Soundex of Mississippi and there they were - married Oct. 16, 1880 in Sumner County (now Webster County), Miss. After sending off for the marriage license, upon receipt I found a JONES had signed the bond (possibly her father or older brother). I wrote back to Mrs. June L. Castle, Circuit Clerk, Walthall, Miss. to ask if she could make out the initials of the J (?) Jones. She could not make out the original either.

In 1982 I will not put off the JONES any longer, sometimes if we just jump in, it is surprising what we find. Since most of my research has been on my husband's family, my "find" was a real joy to start the new year.

I encourage you to go to the nearest library or archives where they have a Soundex on the state you are interested. You might not find anything, but the odds are greater that you will. They have the Soundex of Arkansas at Southwest Regional Archives in Washington, Ark. Mary Medearis makes you feel most welcome. If you live in the Ark-La-Tex area, it is a nice one-day get-away. If you are outside the Ark-La-Tex area, both Shreveport, La. and Washington, Ark. have excellent food and lodging facilities.

The La. State Archives' Workshop, held Nov. 9-10, 1981, was a great success. More of us Louisianians need to get involved in our State Archives. Charlene Cain and Nancy Veginat are trained to assist researchers having historical and genealogical interests. The search room at the Louisiana State Archives is open to the public from 3:00 A.M. - 4:30 P.M., Monday thru Friday.

I have enjoyed being your editor for the past year and would appreciate any Bible records or other material you might submit for publication in The GENIE. Also, any thoughts you have on improving the publication will be welcome.

May you go forth with great enthusiasm this year, and be sure to help a friend! Everyone needs someone.

Love you,

JEANIE BOYETT

SURNAMES - Please send in your surnames immediately so as to be processed for publication in the April issue.

CLASSES - There will be classes held on the first floor of the Shreve Memorial Library, starting February 13, 1982 from 2 to 4 P.M. The series will start with beginners in research and continue through the advanced researchers. This will be FREE to the public. The classes will continue on the Sunday following the second Saturday of each month.

WORKSHOP - Our Annual Workshop will be held again this year. Mark your calendar and plan to attend the second Saturday in August. Carl & Pat Hallgren are serving as Workshop Coordinators again this year - a good job is always rewarded! The name of the speaker, time and place will be announced later.

SUNDAY LIBRARY HOURS - The Genealogy Department of the Shreve Memorial Library is being opened during the hours 1 - 5 PM on Sundays for a trial period. Try to visit the library on these Sunday afternoons and be sure to register. Parking should not be the problem that it is on weekdays.

Extracting this document, which is over 170 years old, was most difficult. Though Juanita Racine, Ruth Billimek & I (Jeanie Boyett) read and re-read this, there still may be errors in names and figures since this was written in script during the French and Spanish era. You must relate this to the time and verbal expression of the people at this trading post since Natchitoches was a hodge-podge of ethnic groups. We inserted a question mark or substituted a word where we felt doubt existed. We hope these dispatches will help preserve a part of Louisiana heritage.

26th August 1809

Gen. John Moran
Supt. of trade
Sir

On opening receipt No. 7 of Invoice 12th August 1808 instead of 12 pr 22 Pt Blankets as Invoiced, it contained 12 pt blue strands making a difference of \$210. 29/100 for which I have given credits in our books.

The lateness of the coming out of these goods that I expected to have received before this with the experience of former seasons convince me that inferior advantage would result to the establishments if the goods were shipped in the fall so as to arrive at the place of destination in the month of Feb or March - At the southern ? the trade commences in the latter month and continues with little variation till Aug & Sept - after which the demands is principally for small & ornamental articles & for little amounts - by the present arrangement of shipping in the spring & summer when articles are selected from the assortment & the rest lie by almost useless for near six months whereas were we to receive them just as the trade commences our assortment would be most complete at the very time it would be most wanted to be by which we should not only receive the furs & peltries that are brought in but the money to which is sometimes considerable & is generally reserved to purchase what we have not in store - It will be perhaps be objected that we might so to make our calculations that our assortments would be always complete but when it is understood that we make our arrangements for the month & years that the trade raised in - different years & that the Indians change some of their minor fashions as well as the whites - the almost impracticability of always keeping up an assortment will be admitted I think without difficulty especially when it is your wish that no more articles may be called for than can be disposed of in one year. Our remittances won't be made in a shorter time from the date of the invoice than they are at present and the water would be in a better state for navigating more particularly Red River which

SULPHUR FORK FACTORY 1809 - 1821 - Continued

after the month of July is embarrassed with many difficulties that do not exist in good water - These difficulties frequently cause considerable argumentations on the cost of freight besides the opportunities of forwarding from Orleans being more uncertain

From our sales which have amounted since 1st Jany to near 11,000 \$ you will readily believe that we have but articles on hand at this time - There is not more than 6 or 7 lbs (?) Powder 100 lbs Lead no flints but 4 or 5 Blankets - no linens checks handkerchiefs (?) shirts - knives in fact we are almost destitute of everything except strands of calicoes & the strands would have been sold long since had I known they were in store - If a ship;u ptjer tjam tje one now expected does not come so as to arrive at or about the time promised we shall do but little business next year

A metal has been discovered about 100 miles distant from the Pawnee villages that are on Red River which from its nature of appearance we think must be platina - - A. W. Glass who returned from that country this spring brought with him two pieces taken from a mass lying on the surface of the earth weighing as he supposed 10,000 lbs - This metal appears to be unmixed with any kind of ore or other substance - It is harder than iron & like it attracted by the magnet tho not so powerfully & is so tenacious that in cutting it requires to be cut entirely off before the parts will separate - is not affected by such acids as are to be procured at this place - takes a fine polish & will not fuse in a Blacksmith fire - Mr. Glass observes that it may be procured in large quantities & that the Indians make use of it to point the arrows - A piece was given to Mr. Irwin when he left this for Phila to ascertain by the chemist there the real nature of whether it is platina - If it should be would it not be worth while to encourage a trade for it with the Indians - I rather think this is what was said to be the silver ore that abounded in the part of country occupied by the Pawnees & of which mention was made in one of my former communications - Its relative value as to other metals is not known here -

The freedom of this communication. with its length I trust will be executed as it has preceded from a wish to benefit an establishment in which I am sure you take no little interest - Whether the benefit will be ideal or real its with great deference submitted to you -

Sir

Enclosed Invoice of the Furs & Peltries shipped to Joseph Saul Esq being the whole we had on hand - By referring to a note made in our abstract of Day Book under date 25th May last it will be found some few skins were thrown away by Dock Sibley on account of damage - I observed at the same time a number more were injured - upon examining them in packing I was obliged to add to the number already lost near 400 deer skins that were perfectly useless - some few have gone on partially lamed but not many - - In the Invoice is included the cost of the whole as were those that were lost on the other - Upon my return here I reduced the price of skins deducting from each skin a 1/4 to 1/2 lb which would have invoiced them at about 20 to 30 cts per lb had it not been for the loss - - I trust I shall never have occasion again to notify you of a similar one -

The Iron Pots ordered to be purchased at Orleans have arrived they are not exactly the kind I wanted but will answer an excellent purpose.

Sir

Mr. Shaumbough (?) has disappointed me respecting his lead - for understanding that it has risen in price at Orleans he refused to bill it to me for less than 12% in English wt. You will therefore oblige if you will please purchase the 300 lbs I wrote to you some time since - If you do not feel at liberty to purchase on my requisition I will give you a Bill for the amount on Genl. Genl. John Moran

Sir

Herewith enclosed I have the honor to forward to you the accounts of the trading house for quarter year ending 31 March -

May 9th

Genl. John Moran

Sir

I have heretofore been indulged by the Commanding Officers at Fort Claiborne with the privilege of storing the Powder forwarded to this factory in the Magazine of the Fort - The present commanding officer Capt. Wollestonecraft from a disposition not the most favorable to the of Indian trade & a personal enmity to me has refused that advantage to the trading house any longer - I have therefore been obliged to store it in the Skin house at the risk of the very existence of the establishment not only from fire around the Building in every direction but from lightning also - A stroke of lightning falling on a tree not more than 18 inches from the powder has made the danger so manifest that for the safety of the buildings as well as myself I have to request that an order may be obtained from the Secretary of War for the storing all the powder in the Magazine -

Col. Freeman in erecting the Magazine constructed it sufficiently large as he informed me to receive all the powder that might come to this place for private individuals as well as for the United States - it cannot therefore be of the least inconvenience to the Garrison to accomodate us -

Genl. John Moran

Sir

I have this moment received your favor of the 20th March relative to the payment of \$400 the amount of a draft in favor John Cortes - somations (?) it has encited are to me the most painful I ever felt as never before was I called on to justify any pecuniary transaction in which the agency was intrusted to my honor - the enclosed vouchers have been withheld only for the reasons given you at Georgetown when I had the honor of presenting most of them to you - namely that the buildings were not completed and that it would be best to send all the vouchers together - on the 30th Sept. by the accounts forwarded it will be found I returned a balance of \$200. 61¼/100 in my hands which sum was included in the draft of \$400 from an expectation of being called upon for the payment in a very short time for the inclosing the lot upon which the Buildings are as I had contracted with a person for the materials to be delivered in a short time in which I was disappointed - also for the payment of two small accounts which was paid on the 10 & 16th October amounting to 40\$ and for which the work was then in hand - on the same date with the draft will be found paid to Felix Trudeau \$112. 50/100 & I. B. Shaumbrugh for expenses 37\$ and for the Buildings 21 172/100\$ for which a voucher is enclosed - the vouchers for the two first items being included in those that were made up to the 30th Sept. - the balance then remaining in my hand on the 31st Dec. (with the exception of \$59 73¼/100 which was retained to pay accts which would be due beforee I should have other funds) was with the amount recd for the draft of \$250 in favor of John Cortes the sum that was due me as per a/c rendered & it will be found by a copy of my cash book that on the 31st Jan. I was in advance to the trading house \$12 66/100 - perhaps I ought to have said that the balance of \$30 being the difference between what was paid F. Trudeau & B. Shaumbrugh on the 30th Sept & what remained in my hand was included in my a/c but not noticed as the ommission arose from an opinion that in rendering a statement of my Day Book that difference would have been explained -

I read by the same mail a letter from Mr. Saul in which he informs me that two items in his account were objected by you by reason of their being incurred for my private use - I never knew Mr. Saul had charged them on the one for \$61 75/100 I had here at the time it was due & supposed my father paid the other of \$16 - as Mr. Saul never notified me of it - as my father is in the habit of paying small sums of that nature for me - The receipt of \$61 75/100 is enclosed as I have no duplicate of it I must bet the favor of its being returned as it is included in the amount of \$200 allowed for furniture which is holding myself accountable for I presume it is not necessary to render vouchers -

SULPHUR FORK FACTORY 1809 - 1821 - Continued

That the papers forwarded are not as many as I would have wished to have had them must be imputed (?) to the earnestness with which I hasten to give the explanation required as the mail leaves this in so short a time after its arrival I had not time for a more particular arrangement trusting that excuses will be admitted for its want in the promptitude of the justification I rest all inaccuracies with you hoping that you will think of me as I think I meant it to be thought of only -

Vouchers N 24 to 33 are those that Mr. Irwin sent on in mistake - - - -

I am now engaged in inclosing the Post upon which the Buildings are erected which is almost finished when it is done the whole will be completed

I had the honor of informing you in August last of the necessity of having an early supply of goods for this year - of the list forwarded but few articles have been sent & not knowing if it is your intention to send the remainder I feel embarrassed in making out another list - by the inventory it will be seen that we had but 4 ps (?) strands on hand & not much more calico - if the remainder is sent we shall want in addition blue strands of powder with 1 ream letter paper -

Enclosed herewith are the accounts for of the trading house for the quarter ending 30th Sept 1810 -

We should have done an extreme good business this year of the goods - I wrote for that arrived, which may be judged of from the amount of sales for 9 months (between aply (?) 10,000 \$) of the very indifferent assortment we had

The Rifles sent last are not the kind I described they should be at least 4 feet long in the barrel & carry a much less bore - the gun should have nearly the same length of barrel as the short ones I am obliged to sell to the inhabitants - I shall have occasion, with the next goods sent, for a journal & ledger to start noted (?) of debits and credits on same side of ledger if thought expedient - - -

Your letter 15th Sept inclosure came to hand yesterday evening - The mail allows me but to acknowledge the receipt & make a short reply thereto - The inventory, abstract & other papers called for should be sent by next mail 16 days from this date -

In the memorandum of papers wanting is the following note viz -

"The following vouchers are wanting for the contingent abstract a quarter ending on the 31st Dec 1808 -

| " | " | 6 | " Seth Kenny | 5.63 (?) |

Nr. 1 is included in the 71\$ credited by James Chalre (?) on voucher Nr 17 - factory Buildings - Nr. 2 is the balance of \$36. 52/100 Receipted in same Person Voucher Nr. 18 of Factory Buildings - Nr. 6 is included in the amount charged Seth Kenny

for factory Buildings - if those items were rendered for the contingent a/c they were sent in error by Mr. Irwin who made up the accounts for that quarter during my absence and no copies were left by him of a/cs rendered -

The originals of the circular of 20th July & 30th August duplicates of which are inclosed by you never reached me - - -

I had thought from some observations made by you and George Logan (?) when I had the honor of conversing with you then - that inventories would not be called for every quarter - in the month of June it is particularly inconvenient - I have been obliged on several instances to detain large parties of Indians 2 or 3 days - but had it not been for my error of conception I should have rendered one each quarter - The a/c current I have neglected because it states nothing I had hoped it would have been superseded by a better form - but for the future your directions shall be strictly attended to in making up my accounts - the a/c current with the list of balances for the quarters that are wanting shall be forwarded - Inventories were not then taken therefore cannot be had -

The goods shipped from Baltimore in July are near to hand - they will come quite too late for the present year and will be much too short for the ensuing - we have had no powder since 20th Sept last - Carps (?) will be insufficient - The Kentucky Powder has a bad reputation in this country that of Duponts is the best American Powder that has ever been here & is preferred infinitely before any other by the Indians - of the Samples sent F & F F glazed are the best for this Post - Mr. Saul sent me 3000 lbs lead in June last & by his letter of advice used with yours I observe he has forwarded 1521 lbs in addition and gun flints or strands are sent by him -

We shall want in addition to this invoice for the ensuing year Callicoos, spl (?) blankets, strands blue & red, scarlet cloth, rifles & powder the quantity (as I observe you have curtailed all those articles scarlet cloth excepted) you will judge of when you see our inventory and observe I am & the store is - if the kind of callicoos described are not to be had they may be substituted by what is called primitive callicoe great quantities of which I saw in Phila for sale at low prices - I have a piece of scarlet cloth & I shall be obliged to return on a/c of its high price & object particularly to that quality when shown me in Georgetown

Enclosed are the 2 vouchers of Mr. Saul forwarded by you - I did not request them but feared (?) that the ones I sent signed by Mr. Cortes might be returned having no duplicate -

The advance I generally put on our merchandise as present is upon most articles 100% or near it which will make up for some losses or Pettues (?) - -

SULPHUR FORK FACTORY - 1809 - 1821 - Continued

I have to request sir as a particular favor that if from error or oversight in not sending proper accomplishments with Drafts you should not deem it expedient to honor them - that they may be sent to my father who will pay them - and not suffer them to be returned to my mortification & loss of credit - -

17 Nov.

Genl John Moran

Sir

Herewith enclosed are the papers called for in your letter of 15th Sept. the documents wanting for quarter ending 31st Dec 1809 & 21st Mar 1810 except no inventory being then taken & the a/cs current being founded (?) & on inventory they cannot now be had - In Inventory of Peltries I have deducted to make round numbers presuming at some time that our Peltries are worth or will be worth in the month of July - next (?) nearly if not quite what they cost -

I received on the 15th the goods shipped from Baltimore in July last they are much to my wish the greatest part of the calicoes expected -

29th November -

Capt. Charles Wollestonecraft

Commanding Fort Claiborne

Sir

It is my intention to commence packing the Peltries of the Me. (?) States at this place, on the 3rd next month - I have a request of convenient, that you will be pleased to furnish me 3 men for that task (?) -

2nd Dec.

Capt Charles Wollestonecraft

Sir

Your note posted yesterday is this anouncement (Announcement) received - It is not my wish to put to any inconvenience or devange (disadvantage ?) in any way the coming of the Garrison at this place - in making the request for 3 men to assist in packing skins I but complied with the orders of the Secretary of War if it is not convenient to furnish them they will not be required

The Sentinal at this time is of much more importance than at the time when the arrangement was made that you attended to - As we had but little in store then - , whereas at present our store is nearly full - if furnishing 3 men the Sentinal will be withdrawn I must prefer retaining the Sentinal -

"CAMPO" Cemetery - Santa Barbara Brazil - Cont'd.

The cemetery is located on property which belonged to her husband, A. T. Oliver. The Brazilian law at that time did not permit any non-Roman-Catholic people to be buried in the official cemetery.

If the American Colony ever had a book in which the death of its members was registered, it disappeared. There are many graves not identified. In 1954 the "Fraternal Society of American Descendants" was formed in order to maintain the links of brotherhood among the descendants of those first families and to maintain the cemetery.

Col. Wm. H. Norris was the earliest born person buried in the cemetery (1800 - 1893). The first to be buried there in an urn after being cremated in Sao Paulo was Walye Dyer McMullan; he died on 20 July 1978. The oldest person buried there is Lorena P. Green (1874 - 1977) aged 103 years.

This cemetery listing is copied as printed.

WASHINGTON CEMETERY

The Washington Cemetery is located 1/2 mile northwest of Washington, Arkansas. It was established in 1862 on 5 acres of land purchased by the Presbyterian Church from W. W. Andrews. It is still under the auspices of the Presbyterian Church.

The cemetery is well kept and most of it is in family plots which sold for \$50.00 to \$100.00 each. Each plot is 20' X 24' and will hold 10 graves. There are approximately 75 Confederate soldiers buried here and a large monument erected by the citizens of Washington stands at the rear near the center of the cemetery. It was built around 1900. Although the cemetery was established in 1862, there are monuments dating back as far as 1838.

- CHRISTIAN, Reuben H., 20, to Miss Elizabeth M. Bradley, 19, by consent of her parents, all of Union County, on December 9, 1847 by John Meek, MG. (A-36).
- CHRISTIAN, Mr. Samuel W. to Miss Louisa J. P. George, both of lawful age, on December 7, 1848 by Joseph D. Greenhaw. (A-76). (Note: She is buried in Georg's Chapel Cemetery about two miles south of old New London and four miles north of Strong, and east of the Strang-New London road. George's Chapel was a Methodist Episcopal Church South, with a nice church building at one time. This cemetery has the most beautiful and expensive monuments found in the County among the old cemeteries. It was the only one with a marble fence, approximately 50 feet by 50 feet, and a height of 48 inches. This is the only marble fence of this height and size ever observed in any cemetery anywhere. It is now in utter ruins as is this old cemetery. Markers were stolen throughout this county between 1942-1946. This cemetery has been known to me since childhood, and recently I had to have someone who lived at New London find it for me. It has completely grown up and the road is gone. All inscriptions have been copied. The tumbling monuments and marble fence speak of the wealth of this section of the county prior to 1860).

Mobile, Ala. July 15th 1863
Mrs. Mary E. Nobles

Dear lady - I avail my self to Write you a few lines in ancer
to your kind letter concerning the death of your Husban you
wanted to no how long he was sick he was sick about two Weeks
with the tiffoid fever during Which time he talked a great
deel a bout you and his Dear children and a bout home it
appeard that it was his hole study I tried all that I could
to get him off home on furlooh but could not do it he was sent
to the hospital and then I could not Get the chance to see him
any more I staid with him all that I could till he was sent
off to the hospital I was not at his burial I was on gard at
the time he was Buried But Cain was thare and said he was Buried
very nise we throwed in money to send him home and filed to
get a furlooh for a man to cary him home he was kept out of the
grown two days trying to get a furlow to send him home and
failed to get it so we had to burie him at Mobile his number
in the grave yard is 334 and his name is on the headbord and
the dait he died the money that was made up to send him was
made use of in puting him away it cost a bout 35 dollars to put
him nise I will send his cloths home to you the first chance
and your sissors with them and as for my trouble you are welcome
to it and a thousan times as much for I think it no trouble to
me when I think of those he has left behind his desolate family
who now has to morne his loss forever it is a solemn thing to
think of yours and thousand more being left in the same condition
and perhaps thousand more before this War shal end you said you
had lost the best friend you ever had or ever should have it
is hard But we must put our Trust in him who has said I will
be a father to the fatherless and a husban to the Widow I
hope he is gone to Heaven for I dont reglect of heare of his
making use of any bad language since he has bin in camp he
was well thought of by all the company he was a good soldier and
his officers thought a grate deal of him and would have sent
him home if they could have done it while I am Writing thare has
come orders for a hundred men of us to be sent up to enterprise
for something and I dont now what P. S. I will close By saying
to you that I am well at this time and hope this may find you and
family enjoying the same blessing give all my friends my Love
So fare Well I remain your Friend as ever truly till Death

Sgd. James G. Channell

NATCHITOCHE PARISH, LOUISIANA NOTES

By: Fern Ainsworth

The NASH FAMILY of North Carolina, I think, should be titled THE NASH FAMILIES of North Carolina. However, almost all articles I have read do not connect or even attempt to connect the various families. Be that as it may, you will usually find the names of ABNER, THOMAS, MICHAEL and FRANCIS appearing in each family if they had that many male children.

I quote one of the most used paragraphs in any NASH FAMILY History you may read. "Abner Nash, a native of Virginia, came to North Carolina in 1763. He was a delegate to the Revolutionary Congress in the province, a member of the Council of Safety, Speaker of the first House of Commons after the Revolution, Speaker of the Senate, governor of the state (1780-1781), and a delegate to the Continental Congress (1782-1786). He was one of the closest friends of the Blounts, particularly William Blount, whom he made guardian of his son, Abner (Ashe - Biographical History of North Carolina. Vol. I 403-404)". One has to be very careful in quoting printed histories - authentic as they may be. I have read this particular quote in many books, etc., but I think the statement should be studied and deeper research is indicated.

There is an interesting item from THE BLOUNT PAPERS (Archives at Raleigh North Carolina) in a letter from WILLIAM BLOUNT to John Gray Blount 1783, and I quote: "Can you tell me what to do with my Ward Abner Nash (See copy of Abner Nash Will in the Frank Nash Papers, 1775-1797 N.C. Dept. Archives and History, 12 Dec. 1786) for I never was more at a loss what to do with anything then with him, Mrs. Nash declares she can keep him no longer, no merchant, lawyer nor in short no decent person here will take him on any terms and my wife is much opposed to his living with me, and as T. Ogden is to live with me in the future I have hardly room for him and if I had I have not the Colour of business for him."

There is much more in the letter, but I only quote this much of this letter concerning his ward, Abner Nash), but there is much more relative to Abner Nash in the letter.

A typical account of this family is as follows: (Dictionary of American Biography by Dumas Malone.)

"John Nash emigrated from Wales to Virginia about 1730. He married Ann Owen and they had these children: 1. Abner, born circa 1740 at Templeton Manor, late Prince Edward Co., Amelia
2. Francis, 3. Thomas.

Abner removing to North Carolina in 1762 settled at Halifax. He married (1) Justina (Davis) Dobbs (widow of Governor Dobbs--- from same section of Ireland as the Nashes). Married (2) Mary Whiting Jones. Abner was Governor of North Carolina and as a Regulator gained considerable reputation in the Revolutionary War."

Following is the author's comment: Note the Nashes came from Wales, and also from Ireland, the same section as the Dobbs. This could have happened, but one wonders if sufficient research was conducted before making the statements.

In an account of Abner Nash, Governor of N.C., given by Frank Nash and printed and reprinted many times, gives the typical story. Abner was son of John Nash and Ann Owen and were the first in North Carolina giving very little different data as others.

The tradition that the Nashes came to this country, or even to N.C. about 1730 can be found in almost all the publications of the life of these men. Existing records prove this to be incorrect. We know the Nashes who came to N.C. came from Virginia, and it is possible they were closely connected with the ones in Maryland, and in fact may have been closer to the New England families than has been heretofore noted. It should be noted also that many of the families into which the Nash Families married belonged to the Quaker belief.

In my research the first mention I find of any Nash in N.C. is that of Frances, 21 Nov 1695, and it is shown below as it appears in the instrument itself.

This bill bindeth me Richard Burtenshall my haire Executors or Administrators to pay or Case to be paid Unto Joseph Chew his haire or assigns the full and Juyst some of three pounds tenn shllines courant mony to be paid in Good Fatt Beafe or porke to the Receiver Liken upon my now dwelling plantation or some where Conveniently in Corrotock precinct as witness my hand this 21st of November 1695.

This Bill Proved in Open Court this 31st of Jeniuary Anno 1698/9. Attestes by mee John Bennett Clarke. (This man's name is not John Bennett Clarke but John Bennett - Clerk) Note that in some areas Clerk is still pronounced Clark.

Because there are so many conflicting stories pertaining to a particular family of Abner Nash, the dates the Nashes came to America, the date they came into North Carolina, and the parents of Abner it seems the problem occurred due to so many of the wives' nam being Anne. Tradition and oral family data sometimes becomes facts when they are not true facts. Sometimes generations can cause a conflict of dates and parents' names. I am reminded of one family whose oldest living relative, about 90 years old with a keen mind and a good knowledge of his ancestors told everyone his grandfather's name was Edward. The truth of the matter

was that Edward was the immigrant ancestor and in that vein he called him his grandfather, while his real grandfather's name was something entirely different. It caused researchers much work to prove to members of the family the old man was speaking generally instead of specifically.

From the July issue of this publication I have listed many Nashes who came to America before 1700, and the typical story about the Nash Family coming to America about 1730 is wrong, as well as the statement the first Nash into North Carolina was after 1730 is incorrect also.

There have been many publications naming the brothers of Abner and some of the authors give Abner's children. Following is typical: (Malone page 383) John and Anne (Owen) Nash of Templeton Manor, Prince Edward County, Virginia, had the following children:

- I. Abner born ca 1740
Married (1) Justin (Davis) Dobbs about 1770, the
widow of Governor Dobbs
Married (2) Mary (Whiting) Jones

Children:

1. Fredercik

1762 removed to Halifax, North Carolina
1770's removed to New Bern, North Carolina
Member of House of Burgesses
1779 Governor of North Carolina

2. Francis Nash born 1742
Married Sarah Moore
Died October 7, 1777

The below data - as taken from the D.A.R., Vol. 5, page 192

Mary Nash was the mother of Francis Nash, who in 1775 was lieutenant colonel of the First North Carolina Regiment. In 1777 he was made Brigadier General of the Continental army and died of wounds received at Germantown. On the day of his funeral Washington requested "All officers whose circumstance will admit of it, will attend and pay their respects to the brave man who died for his country."

Nash County, North Carolina was named in his honor, as was the city of Nashville, Tennessee.

You will note from the genealogy appearing in Malone's record gives only two children of John and Anne. Other publications give the names of 4 brothers and 3 sisters. In the will of Abner Nash he mentions at least 5 children.

In the above genealogy it mentions only one brother of Abner, (Francis) yet we find 6 March 1769 Chowan County, North Carolina, will of Thomas Nash and he names his brother, Abner as guardian to his children, so we know Abner had a brother, Thomas. In

NATCHITOCHE PARISH, LOUISIANA NOTES - Continued

Abner's will he mentions 5 children, and we know he appointed William Blount as guardian of his son, Abner, Jr. (See this article as taken from the Blount Papers regarding Abner, Jr. in a letter from William to John Gray Blount 1788.

The 1790 Federal Census of North Carolina lists the following Nashes as head of households (A census cannot be always relied upon, and there are many errors, but they are a good springboard for further research).

ORDER FROM: Southwest Pennsylvania Genealogical Services
P. O. Box 253
Laughlinton, PA 15655

PRICE: Annual subscription rate is \$9.00 for each quarterly (4 issues per year)

Amateur genealogists and historians will be pleased to learn that Southwest Pennsylvania Genealogical Services has announced publication of five new periodicals of genealogical and historical source material, which will prove to be of invaluable aid in tracing elusive ancestors and unraveling the long forgotten history of each area.

The publications are compiled by professional researchers and each will concentrate on primary source records which have never before been published and will also include a number of early printed sources which are not available to the average researcher. No portion of the counties will be overlooked. The period covered will range from earliest times to the demise of the last Civil War veterans.

Each issue will be indexed, and a query column will be available to aid readers in finding others searching the same family. Published quarterly in April, July, October and January; each 24 page publication will be printed offset, 5½ X 8½ with soft cover. The annual subscription rate for each publication is \$9.00 per year (4 issues). Brochures giving complete details are available and will be mailed to interested parties who include a long, self-addressed envelope with their request.

SHANNON

I am trying to locate the plantation where my gr. grandfather was enslaved. My grandfather, Alex Shannon, was b. in La., and assume his parents were also. He was known by two names, possibly a reflection of the last two slave masters. He served with the Union Army during the Civil War under the name Woodson Shannon. To my knowledge, he had two wives, Sarah Clark and Amandia Robinson. Does anyone have knowledge of a Shannon or Hagan plantation? CONTACT: Marjorie S. Williams, 1120 Wallace St., Gary, Ind. 46404.

QUARTERLY EXCHANGE PROGRAM

Reaching out to approximately 100 other genealogical societies around the United States by means of our quarterly exchange program is, to me, one of the most interesting and worthwhile projects of the Ark-La-Tex Genealogical Association. After the quarterlies are received and listed I take them to the Shreve Memorial Library--Genealogy Section where they are available to everyone using this public library.

These publications not only have vital information from records in their geographical areas but also articles of general interest such as "The Importance of Newspapers in Genealogy" which was featured in the Summer 1981 issue of EAST TEXAS FAMILY RECORDS or "Researching Collateral Relatives" in the February 1981 issue of the Indiana Historical Society's GENEALOGY.

Program and project ideas are exchanged as well as suggestions for improving the quarterlies. One thing I wish is that every cover would contain the complete name, address, volume, number and date to make cataloging easier. Maybe I am just a little lazy.

Our editor suggested that I add some personal notes to this page. After nearly three years of working as exchange secretary, I know I have gained more from this job than I have given. One time I even found some Bible records of my BREISFORD family. My maiden name is DUNKLE and my ancestors were Pennsylvania Dutch so the article "What's a Palatine?" from the Summer 1981 St. Louis Genealogical Society Quarterly was very helpful. I keep searching every index for the rather unusual name of SCARFF but so far no success with that one.

My son and daughter have provided four grandchildren so I feel an added incentive to straighten my research to leave for future generations. Since I have retired from being a graphic designer, there really is no excuse any more, but where do the days go!

One suggestion may help some of you who have found information in a quarterly. Check later issues for corrections. I know everyone is as careful as possible, but occasionally some errors do get printed and I notice they are often corrected in the next publication.

If any of our exchanges have problems with their addresses being wrong, blame that one on me and let me know about it as I am also responsible for the labels being made.

BETTY AXFORD
Quarterly Exchange Secretary
