HINTS FROM SOME OF OUR EXCHANGE QUARTERLIES:

From the Midland Genealogical Society Newsletter - Aug. 1985- If the town of your ancestor is no longer on the map, you might like to write to the U. S. Board of Geographical National Center, Stop 523, Reston, VA 22092. This center will check records to see if such a community ever existed in a specific area. The board has records of name changes and "no longer existing" towns.

From the News and Notes of St. Louis Genealogical Society, St. Louis, Mo., Aug. , 1985- During World War I, all males between the ages of 18 and 45, were required to register for the draft. These records are on file at the National Archives and Records Center in East Point, Georgia. They are filed by the individual himself and may supply important information regarding parents, spouse, date of birth and place of birth. In order to request a copy of the selective service records, you must supply the full name of the person and the city or county in which he was living at the time of registration. However, if your relative lived in one of the larger cities such as Los Angeles, Ca., or St. Paul, Minn., an exact street address must be included.

Send to: Archives Branch, Federal Records Center GSA  
1557 St. Joseph Ave.  
East Point, GA

Use a block of styrofoam to clean off lichen and soil on old tombstones. This will not damage the stone and leaves a certain amount of residue in the grooves, making the stone easier to read. Reprinted from the Genealogical Society of Stanislaus County, California, Inc. Modesto, CA.
