The Genie is published quarterly. Each member receives four issues for each year of membership. All material published in The Genie is compiled and contributed by the members. The Genie invites exchange of periodicals with other genealogical-historical organizations publishing data of general interest. We regret that we cannot exchange with limited family organizations, but invite them to send samples of their publications for brief review since many of these family organizations are of a great value in information on the family covered by them.

All members of the staff of The Genie are volunteers.

## LETTER FROM THE PRESIDENT

As we begin the New Year the Ark-La-Tex Genealogical Association has made a number of changes. First, several new officers and trustees have been elected to serve on the Board of Directors. Their names are found on the inside of the front cover of this GENIE. These new people, along with those who have been reelected to a second term, are pledged to bring renewed vigor to the organization.

I want to introduce to you the new Editor of THE GENIE. Lee Musselman is head of the Department of History and Social Sciences at LSU-Shreveport and is active in numerous other civic endeavors. He has had over six years experience as editor of an historical journal. We are indeed fortunate to have Lee accept this very demanding position. I call on all members of the Association to assist in keeping THE GENIE one of the best such publications in the nation by submitting material to the Editor.

The Association has a new home. Beginning with the January meeting we are at "home" at the Randle T. Moore Center on Fairfield Ave. in Shreveport, La. Thanks to the Shreveport City Administration, and in particular the Department of Parks and Recreation (SPAR), our meeting, library, storage and work areas are now consolidated under one roof. Meetings are still on the second Saturday of each month at 1 PM, except in August when we have our annual seminar. The December meeting is the annual business meeting.

Speaking of seminars, we were fortunate to have Ron Bremer of Salt Lake City with us for a seminar on January 19. His availability was conveyed to us on rather short notice, but thanks to SPAR we were permitted to have the seminar at the beautiful Barnwell Center.

As your new president, I want to take this opportunity to thank you for your vote of confidence. Also, I want to say that you have elected an excellent Board of Directors and I look forward to working with them. I pledge to give the Association my best effort.

Sincerely,

Carroll H. Goyne, Jr.

# ORIGINAL LAND ENTRIES OF NATCHITOCHE PARISH, LOUISIANA

(Found in Natchitoches Parish Court House)

After the thirteen colonies relinquished claims for lands from the Atlantic Ocean to the Mississippi River (and even farther West) by 1785 the United States had become a vast land owner. A system was devised, whereby this land would be distributed. The rectangular system was used and as land became available it was either sold, granted to soldiers, etc.

The "Original Entry" books are records of those transfers from the United States to individuals, schools, railroads, states, etc., etc.

TITLE: COMFORTABLY FIXED by Judith Morgan Darby.

ORDER FROM: Judith M. Darby, One Cartbridge Road, Weston, CT 06883.

This delightful book is the story of a New England family's migration westward through four generations of letters beginning in New Hampshire in the 1830's and ending in Arkansas in 1909. The letters for the most part were transcribed just as written. There are letters from parents to children, children to parents, to sisters and brothers, nieces and nephews and soldiers letters home. there are love letters and a honeymoon diary detailing the trip to Niagara Falls. All of these letters give and request information on various family members. In some instances you are given both sides of the correspondence as the young soldier in charge of the family farm, who had to leave it in the care of his sisters, gives them directions on running the farm and their answers request instructions on handling hired help among other things. All these letters give us a close look at the life style of these interwoven families. In between each series of letters, the author has filled in the family and put the times in context. A series of genealogical appendixes gives the descendants of each family: William and Mary Hale (Mann) Darby, the Heard line, the Mann (Man) line, the Ichabod Smith line, and the Tillotson (Tilletson) line. There is a bibliography plus six pages of notes giving full documentation. Besides being good reading this is an excellent well done family genealogy. Size 6 by 8½. 162 pages. Hard cover. Full name and place index.

This is a series of seven booklets which the author calls a modular style book, which will allow other lines to be added. Each of the booklets, however, is self contained and has its own table of contents and index. 1. Contains the Yanconish line back into Czechoslovakia in the mid-1800's. Elizabeth Yanconish's mother was Elizabeth Brown, and her line is traced into South Carolina to a birth about 1809. Other lines are Morrison from Liverpool to New York in 1847, Jamieson and Madden born in Scotland in mid-1800's. 2. Deals with 15 generations of the Cary family in England before picking up the American line. There are 9 generations of the Brett family in England and other families traced in varying degrees are Pool, Sturdevant, Abbott, Chandler, Bickford, Fuller, Durkee and Moulton. 3. Besides the Berry family whose immigrant ancestor was Capt. John Berry, who arrived from Barbados prior to 1669, this booklet deals with the families of Ryerson, Roome, Van Gelders, Mead, Mandevilles, Courters, Young, Webb, Miller and Hontz. 4. Picks up the ancestry of Amanda Hontz of number 3 and proceeds for 3 generations in Pennsylvania. 5. Picks up the ancestry of Hannah McNeill, the wife of Thomas Brown, from booklet 1 and carries it back several generations in Illinois. 6. Gives 26 generations of the Macalister family in Scotland, but states, "It remains to establish the precise descent of Margaret Mac Alister." 7. Draws together additional information found after the completion of the other six booklets. There is additional information on Peter Berry's ancestry, the Hontz family with connecting lines of Northstein and Sauerweins, more on Thomas Brown, plus the South Carolina Brown families of Randolph, Perry and Washington Counties. These booklets are filled with ancestral charts, so the reader can follow the lines from family to family. There are maps, pictures, newspaper clippings and so very many copies of original records. These include birth and death certificates, citizenship, Declaration of Intention, the Rodny List from Czechoslovakia, probate records, military records and many more which add interest and authenticity to these booklets. Size 8½ by 11. Number of pages varies from 7 for booklet six to 52 for booklet two. Total number is 248. Stapled. Each booklet has full name index.

# COMPUTING BIRTH DATES

Given the Date of Death and the Age of the Individual in Years, Months, Days at the Time of Death

## INSTRUCTIONS

1. Find the DAY of death in the left column. Treating this as day 0, the day before as 1, the day before that as 2, etc., count up the column the number of days of life given. If you reach the top of the column before you have finished counting, continue at the bottom of the column. If the month preceding that of death has less than 31 days, be sure to skip the unneeded days in the column. You now have the day of birth.
2. Find the MONTH of death in the lower month column at the right. If you went past the 1st while counting days, go back one month. Just like with days, count this month as 0 and count the number of months of life. This gives you the month of birth.
3. Take the YEAR of death. If you went past January when counting months, subtract 1 from the year of death. Now subtract the number of years of life from the year you have to get the year of birth.
4. LEAP YEARS: Any years evenly divisible by 4, except the century years, unless they are divisible by 400 (1600 was a leap year; 2000 will be the next one.). Remember that when you count back the days, you skip only 31 and 30, instead of 31, 30, and 29, to correct the number of days in the month. The rule to remember: Thirty days hath September, April, June, and November.

Note: To check the birth date you have arrived at, start with that date and count forward to the date of death.

EXAMPLE I: Subject died 31 May 1966, aged 94y 11m 7d.

1. Starting with 31, treat this as day 0 and count back 7 days. This brings us to 24.
2. We did not go past the 1st, so starting with May in the month column, count up 11 months. This takes us to June.
3. We did go past January, so 1966 becomes 1965. Subtracting 94 from 65 gives 1871. THE DATE OF BIRTH: 24 June 1871.

EXAMPLE II: Subject died 1 March 1896, aged 35y 7m 2d.

1. Starting with 1, treat this day as 0 and count back 2. The month preceding March is February and 1896 was a Leap Year so we skip only 30 and 31. The before March 1 was February 29. Treat the 29th as 1, etc. This lands us on 29.
2. We did go past the 1st; so starting with February in the month column, count up 7 months. This takes us to July.
3. We did go past January; so 1896 becomes 1895. Subtracting 35 from 1895 gives us 1860. THE DATE OF BIRTH: 28 July 1860.
